

19<sup>th</sup> ANNUAL SASVEPM CONGRESS 2022  
24-26 August 2022 • East London ICC

The Southern African Society for Veterinary Epidemiology and Preventive Medicine is pleased to announce the 19th Annual Congress that will be held on 24-26 August 2022 at the East London ICC.

SASVEPM recognises the importance of the links between the health of animals, humans, and the environment that we share. This One Health concept has been expanded to include welfare, since the welfare of animals, humans and our environment is similarly connected. The One World, One Health, One Welfare approach is critical for global sustainable development and economic growth.
